

Hedge Connection Announces Member Success Stories

- Networking events and web platform facilitate allocations
- 90% membership renewal rate

New York, NY, October 18, 2007 – Hedge Connection Inc. (“Hedge Connection”), the first internet-based research and networking platform for hedge funds and qualified investors, today provided an update on the progress of hedge fund members.

From June to August at least six managers have reported receiving allocations ranging from \$1 million to \$10 million from investors they met on Hedge Connection. The known allocations were to credit, global macro and PIPES strategies. The allocations came from investors met at on the internet platform earlier this year or from the first annual networking event held in June. Since the launch in 2005, Hedge Connection enjoys a 90% renewal rate among its "Club Hedge" members of the service.

Commenting on the success, Ms. Lisa Vioni, President of Hedge Connection said, *"Hedge Connection's internet platform and IMR's proven event format provides managers a powerful, integrated marketing tool to help establish a fund's profile and build relationships with active allocators. As members of Hedge Connection investors gain direct exposure to high quality, niche managers and hedge funds build important relationships with investors that are critical in building their business. Receiving an allocation is a long cycle process. We are pleased that we could help our members approach marketing more efficiently."*

Hedge Connection Hedge Fund Member Alana Aldag, Partner of Cabezon Capital Management, LLC added, *"While it is easy for us to identify large investors with known macro mandates, Hedge Connection provided a link to pools of capital located off the hedge fund industry's beaten track. In particular, we were able to directly connect with family offices who explicitly needed exposure to our unique take on macro."*
